

Groundbreaking Greeks

In the Groundbreaking Greeks project, your child will learn about different periods of Greek history, exploring the earliest civilisations. They will understand how the geography of Greece affected the development of city states and explore Athens, learning about the structure of the government and society. They will get to know some of the most significant Athenians and understand why Greek art, culture, architecture, philosophy, medicine and mathematics were so significant. Your child will learn about the leadership of Alexander the Great and discover how ancient Greece became part of the Roman Empire after the Hellenistic period. To end the project, your child will decide which was the ancient Greeks' greatest idea, and explore how the legacy of ancient Greece affects their lives today.

All of this will run alongside the Year 6 SATS. We will have to work hard, but there will also be lots of fun with end of year activities and a camping trip.

Memorable experience	Time team Outdoor Adventure Camping Trip
